

**PVP14L**

The PVP 14L is for a mono/stereo signal to be carried to a mono/stereo input to provide expression to a single channel from a keyboard or any line input. Internally the PVP14L uses a dual 20 K-ohm volume pot to assure simultaneous quantity of expression.

**PVP14L****TECH INFO**

Impedance	2 x 20 kΩ (double long-life linear potentiometer for stereo keyboard)
Input	n.2 ø 6.3 mm mono jack sockets
Output	n.2 ø 6.3 mm mono jack sockets
Controls	minimum volume setting (2 x 100 kΩ linear potentiometer)
Dimensions	86 (w) x 200 (d) x 60 (h) mm
Weight	0.600 kg
Volume (1 pcs)	0.00265 cbm
Master Pack	12 pcs

PVP14L

**PVP16L**

This volume pedal was created to provide internal volume control of a keyboard. The PVP16L uses a 20 K-ohm volume pot that enables a perfect regulation of the volume of a signal. Fitted with a 1.95m cable and a stereo jack.

**PVP16L****TECH INFO**

Impedance	20 kΩ (long-life potentiometer for stereo keyboard)
Input	Stereo lead (1.95 meter long) with ø 6.3 mm stereo jack plug (O-ring)
Dimensions	86 (w) x 200 (d) x 60 (h) mm
Weight	0.600 kg
Volume (1 pcs)	0.00265 cbm
Master Pack	12 pcs
