G12 EVH

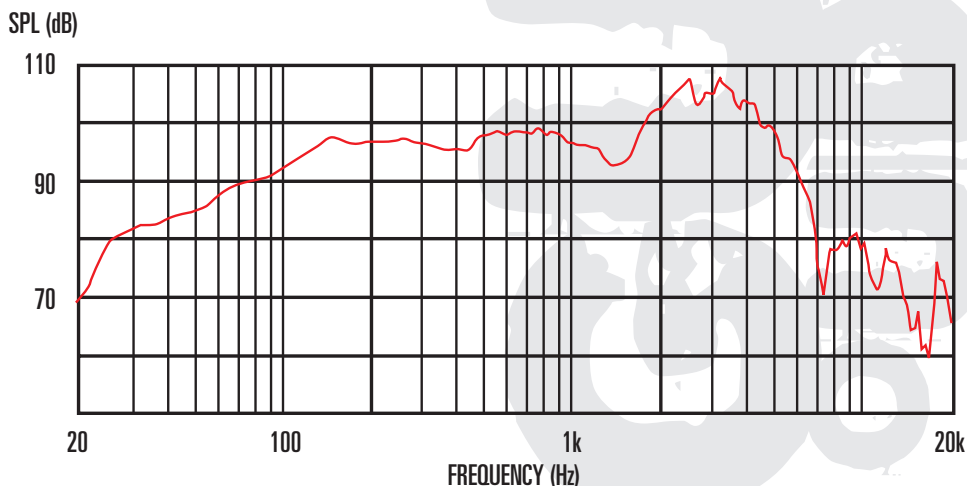

Edward Van Halen and Fender have joined forces to create the EVH 5150™ amplifier. This incredible collaboration delivers ultimate Van Halen tone through 4 x 12 cabinets loaded with Celestion 'G12 EVH' speakers.

Throughout his career, EVH has sought out original Celestion 20-watt Greenback speakers to load into his recording and performing rigs. So, when designing the EVH 5150™ it was to Celestion that EVH and Fender turned in search of that vintage Greenback sound.

Celestion's Heritage Series G12M speakers are a faithful reproduction of the original 1960s 20-watt Greenback and for EVH they provide the ideal solution. However – in order to give this speaker a look that is unmistakably EVH – we've added a specially designed label, featuring the Van Halen logo and unique EVH striped design, along with a black-painted can that evokes the memory of the rare and much sought after Celestion 'Blackback' speakers.

Please note that the G12 EVH speaker is only available in EVH 5150™ 4 x 12 cabinet.

FREQUENCY RESPONSE

GENERAL SPECIFICATIONS

Nominal diameter	12", 305mm
Power rating	20W
Nominal impedance	15Ω
Sensitivity	96dB
Chassis type	Pressed steel
Voice coil diameter	1.75", 44.5mm
Voice coil material	Round copper
Magnet type	Ceramic
Magnet weight	35oz, 0.99kg
Frequency range	75-5000Hz
Resonance frequency, Fs	75Hz
DC resistance, Re	15Ω

MOUNTING INFORMATION

Diameter	12.2", 309mm
Overall depth	5.1", 130mm
Magnet structure diameter	5.9", 150mm
Cut-out diameter	11.1", 283mm
Mounting slot dimensions	0.31", 7.9mm Ø
Number of mounting slots	4
Mounting slot PCD	11.7", 297mm
Unit weight	7.9lb, 3.6kg
