AMPLIFICATION

Name: _____

The diagram shows the control panel layout for the HT-5 amplifier. It is divided into four main sections: **CLEAN**, **OVERDRIVE**, **EQUALISATION**, and **CABINET**. The **CLEAN** section has a **VOLUME** knob (0-10) and an **OVERDRIVE SELECT** switch. The **OVERDRIVE** section has a **GAIN** knob (0-10) and a **VOLUME** knob (0-10). The **EQUALISATION** section has four knobs: **BASS**, **MIDDLE**, **TREBLE**, and **ISF**, each with a 0-10 scale. The **CABINET** section has a rotary switch for **EMULATED OUTPUT & HEADPHONES** with positions for **4x12** and **1x12**.
