

Nimbus™ Jr.

FEATURES

- Compact and portable professional dry-ice machine creates a thick, white cloud that hugs the floor
- Easy, plug-n-play operation quickly heats water to its optimal operating temperature
- Ready to cloud in less than 20min with a 4-liter water tank capacity
- Simplify transport to any mobile event with a smaller-sized machine
- Manipulate the output and flow with the adjustable, multi-level control handle
- Increase safety with low-water and temperature sensors that automatically shut off heaters
