

FOR USE WITH
AKAI PRO SYNTHSTATION

SynthStation 25

Piano Keyboard for iPhone AND iPod Touch

TRANSFORM YOUR PHONE INTO A MUSIC PRODUCTION STUDIO. Synthstation 25 transforms iPhone or iPod touch into a portable music production studio for mobile music creation. This MIDI keyboard controller gives your handheld device a two-octave set of piano keys and professional audio outputs. You can use the Synthstation 25 with Akai's SynthStation app as well as virtually any MIDI music software on your computer or with MIDI hardware devices. Synthstation 25 is powerful enough for professional musicians, yet virtually anyone can use it to easily create music.

Synthstation 25 gives you two octaves of velocity-sensitive, synth-action keys, pitch and modulation wheels, and octave up and down and sound-bank buttons, plus MIDI-over-USB capability for use with a wide range of computer-based music production applications. Synthstation 25 has a stereo pair of RCA line outputs and a headphone output, so you can compose with your iPhone or iPod touch on the go or connect to recording and sound reinforcement systems.

FEATURES

- 25-key MIDI keyboard controller with dock for iPhone and iPod touch
- Velocity-sensitive, synth-action keys for expressive performance
- Pitch and modulation wheels, octave +/-, and sound-bank buttons
- Stereo RCA line outputs and headphone jack
- MIDI-over-USB for use with virtually all music software
