

## X5

### TWO-CHANNEL, 24-BIT DIGITAL DJ MIXER

**THE PERFECT TWO-CHANNEL MIXER FOR V7.** This two-channel, 24-bit, high-resolution mixer contains high-quality A/D and D/A circuitry and powerful look-ahead limiters at the master, booth, and headphone outputs to deliver virtually lossless, clip-proof audio performance. Borrowing from the industrial design of the award-winning Numark family of Serato ITCH controllers – NS7, NSFX, and V7 – X5 perfectly complements V7, the motorized turntable software controller. While X5 is a perfect fit between a pair of V7s, it is also compatible with all turntables, CD players, and other sources.

### FEATURES:

- Looks, fit, and finish match perfectly with a pair of V7s
- Ultra-long lifetime CP PRO crossfader, same as in NS7
- 24-bit circuitry for superior sound quality
- Look-ahead limiters on master, booth, and headphone outputs eliminate clipping
- Slope and reverse controls on crossfader and line faders
- Each channel offers EQ/Kills, gain, Transform
- Repositionable phono/line switches
- Dedicated mic input with EQ
- Master (1/4" pair, balanced), Booth (RCA, pair), S/PDIF optical and coaxial digital outputs
- Mini-crossfader cueing with headphone tone control
