

CERWIN-VEGA!

CMX – Cinema Music eXtreme
The Power Puts You There.

CMX
Series

The CMX Series.

Are You Listening?

CMX is a Cinema/Music eXperience family of speakers that combines Legendary Cerwin-Vega! sound and power handling with modern aesthetics. Cerwin-Vega's CMX is a new line of powered and passive speakers that are aimed at the discerning listener that appreciates their music clear, crisp and LOUD. How is it possible to achieve LOUD while achieving sonic purity associated with audiophile products?

Technology!

Cerwin-Vega! VegaBass™ subwoofer technology makes it possible. This feature allows your receiver to drive the mid and high-frequency components in our powered units, while the speaker's integrated subwoofer and matched amplifier handles the demanding low frequency reproduction. Want more? Updated CMX drivers utilize a hybrid blend of magnesium, graphite and polymers for accurate sound throughout the driver's range. Components with woofers are set up in a Bipolar Array for clear, deep bass. However technology doesn't mean complicated, as CMX components mix and match with simple wiring.

CMX-212

The slim tower designs are key to the high-bass performance and sound pressure levels that the CMX is capable of producing. The CMX family includes 3 powered towers, a passive tower, 2 passive bookshelf speakers, 2 passive center channel speakers and two powered subwoofers.

Beauty IS the Beast

The CMX Series is designed for the home theater and music enthusiasts that crave solid bass and high-volume levels, without compromising sonic detail and beautiful aesthetics. The beauty of the CMX Series isn't just about appearances. The enclosure designs are key to the high bass performance and sound pressure levels that the CMX Series is capable of producing. No matter what type of system you want to build – in any type of room configuration – we have the required components. No matter what your interest, whether it's a two channel high-volume system, or an accurate 5.1 or 7.1 home theater system. CMX is all you need. CMX is the beast unleashed.

CMX

Series

The Shys
www.theshys.com

The Shys debut album, an eclectic blend of rock/pop music, led to the band touring and playing festivals all over North America and the UK. The bands lead single "Call In The Cavalry" was featured in the popular HBO series "Entourage", MTV and three feature films. The Shys tour with Cerwin-Vega! pro gear.

CMX-5.1 Home Theater Speaker System
It's a Wrap! Literally.

While the CMX series allows you to totally design your own custom system, Cerwin Vega engineers have made it even easier to assemble your home theater system in one box. We've matched components from our CMX Series to produce a total 5.1 Home Theater System. The CMX 5.1 System is a one stop solution for today's discerning client who craves a remarkable sonic experience in a compact speaker system. Each surround satellite is smaller in height and width than a DVD case! Less just became more.

Do it by the numbers.

CMX has you covered no matter what your needs, room or budget. With three powered towers, a passive tower, two passive bookshelf speakers, two passive center channel speakers and two powered subwoofers. This deep lineup allows for many different configurations, from two channel high-volume applications to 5.1 or 7.1 home theater applications. Check it out, because you deserve it!
