

# MPD24

## PRODUCT DESCRIPTION

Akai Professional's MPD24 is the velocity sensitive pad controller for musicians and DJs working with sampled sounds. The MPD24 features 16 MPC-style velocity and pressure sensitive pads plus transport controls for interfacing with DAW/sequencing applications. With Akai's MPC 16 Levels and Full Level features for ultimate pad control, four selectable pad banks totaling 64 pads, six assignable faders and eight assignable, 360 degree knobs for transmitting MIDI Control Change data, the MPD24 provides unprecedented creative freedom for manipulating sampled material.

## FEATURES

- + 16 MPC-style velocity and pressure sensitive pads
- + 4 selectable pad banks for a total of 64 pads
- + 6 assignable Faders for transmitting MIDI Control Change data
- + 8 assignable 360 degree knobs
- + REW, FF, STOP PLAY and REC buttons that transmit MMC (MIDI Machine Control) messages to DAW/Sequencing applications
- + Backlit, easy to read LCD display
- + MIDI and/or USB operation
- + USB powered (or powered via optional AC adaptor)
- + Included Editor Librarian software (Mac and PC)
- + MPC 16 Levels and Full Level feature support

## APPLICATIONS

A versatile, portable design allows the MPD24 to be incorporated as part of any home studio environment or as an integral part of a live set-up. The MPD24 is a perfect solution to a wide array of musical challenges.

- + An invaluable tool for performance-oriented music artists and DJs/Producers.
- + Allows for a truly interactive and tactile approach to music production.
- + A great solution for anyone who finds triggering and programming drum parts on a MIDI keyboard obsolete.

## POSITIONING

The MPD24 is a highly intuitive sample triggering and rhythm sequencing tool that will animate and breathe life into any production style or performance.
