Clamp interior is lined with cloth to protect your mic.

Die-cast steel adapter with 5/8"-27 threads. Angle adjustments will lock into place.

MY410 Black finish

MY410CG
Champagne finish

FEATURES AND BENEFITS

The perfect choice for vibration free microphone support! The MY410 fits most large diaphragm condenser mics (42-48mm diameter) including the OSM-800. The die-cast steel adapter with 5/8"-27 threads features an angle adjustment with locking knob and will attach to any mic boom. The MY410 is available with a black powder coat finish (MY410) or a champagne finish (MY410CG).

Our award-winning packaging is eye-catching and describes all of the product features.
