

**HOTONE** SKYLINE Series  
Stompbox  
**EKO** III

DIGITAL/ANALOG DELAY  
Owner's Manual

THANK YOU FOR PURCHASING A HOTONE PRODUCT!

EKO is a digital delay stompbox with an analog direct signal path, which gives it a classic natural echo tone.

The MOD mode lets loose a deeper spacey feel. The sound is pure, rich and warm, and the maximum delay time is approximately 500ms.
