

**J. ROCKETT AUDIO DESIGNS**

## Controls

- **SOS Control:** Subtly adjusts the amount of top end in your signal path to be balanced.

## Settings

Every pedal board needs a good buffer. Buffers balance out your impedance and get that loss of highs back on track, especially with multiple pedals and long cable runs. The quality of guitar cables varies so if you have ever plugged straight into your amp and then back into your board, you know what I mean. The SOS is exactly that, a pedal that will rescue your tone. There is one knob used to subtly vary the focus of your high end. Some buffers can over-do it and some not enough. The SOS control will allow you to dial in the highs to be exactly how you need them and you won't get that crazy interaction with Fuzz pedals and Wah pedals.

All J. Rockett Audio Designs pedals operate off of the standard BOSS type 9 volt adapter or a single 9 volt battery. The power input is a 5.5 mm x 2.1 mm jack with the positive voltage on the outer sleeve. Using an external power supply will automatically disconnect the battery. Disconnect the input jack to preserve battery life when not in use or when not used with an appropriate, external power supply.

2.1mm x 5.5 mm tip/negative plug

## Warranty

J. Rockett Audio Designs LLC will repair or replace, at its discretion, defective workmanship or materials on all new J. Rockett Audio Designs products directly or through the selling dealer or an authorized service technician for one year from the date of purchase at no cost to the original purchaser. Repair and replacement parts installed will be warranted for the unexpired portion of the original warranty term.

Before sending a product in for repair, please contact us at [chris@rockettpedals.com](mailto:chris@rockettpedals.com) or [jay@rockettpedals.com](mailto:jay@rockettpedals.com) or call us at 760-419-1345.

This warranty does not cover shipping costs, product appearance or damages caused by accident, abuse, misuse or alteration. A dated sales slip or order number (issued by a tech, dealer or J. Rockett Audio Designs) must accompany a product being returned for warranty service. Repairs without a return authorization number will be refused. Please allow four (4) weeks for warranty service. For more information please contact J. Rockett Audio Designs via our website at [www.rockettpedals.com](http://www.rockettpedals.com) or call us at 760-419-1345. No other warranty is expressed or implied.
