Saffire LE

6 In/8 Out Firewire Interface

FireWire

SaffireControl LE

Saffire VST/AU Plug-in Suite

➔ Housed within a sleek black and silver casing and mirroring the original Saffire's desktop design, Saffire LE enables Focusrite to deliver class-leading professional audio and conversion performance to a wider audience than ever before.

Six inputs and eight outputs (including stereo digital I/O) with comprehensive monitoring and i/o control options ensure the recording musician has plenty of options for tracking and monitoring high quality audio. Focusrite build and sound quality, intelligent front-end design and a one-click GUI solution combine to guarantee an intuitive and trouble-free professional recording experience.

Although only the original Saffire has onboard DSP, the Saffire LE comes complete with the entire Saffire plug-in suite, offering highly acclaimed Compression, Reverb, Amp modeling and EQ in VST and AU formats. Furthermore, Saffire LE is bundled with a host of other software titles and audio samples, all included on the accompanying resources dvd.

As with the original Saffire, input and output levels and latency-free monitoring solutions can all be controlled via the accompanying SaffireControl LE software. This stylish application floats comfortably over any recording software, and can shrink in size to suit a number of different recording scenarios. Together with expertly designed analogue inputs and unrivalled digital conversion, Saffire LE is the perfect solution for discerning recording musicians on a budget.

▷ **Ultra-low latency Firewire interface.**

▷ **Unprecedented audio and conversion performance for the price**

▷ **24-bit, 96kHz integrated A-D/D-A**

▷ **Six inputs; Two Focusrite preamps, two balanced Line I/Ps and stereo S/PDIF I/Ps**
