

DITTO

STEREO LOOPER

Dealer Information

When TC Electronic introduced Ditto Looper in 2013 it became a smash hit overnight. Guitarists loved the simple no-nonsense approach to looping, so much so that it became the best selling guitar pedal in the world.

With **Ditto Stereo Looper**, TC Electronic bring some of the most popular features of the larger dual-switch Ditto X2 Looper into a smaller chassis, without compromising the truly essential and simple functionality that made Ditto Looper so popular. These include stereo, USB import/export of loops, backing track, StarJam and the ability to power the unit via either a PSU (TC Electronic's PowerPlug 9 is a great choice) or 9V battery.

Main Features

- Super intuitive – made by guitarists for guitarists
- Stereo I/O
- Loop import/export, StarJam and Backing Track
- 9V battery or optional PSU (TC Electronic PowerPlug 9)

Public launch: April 14th, 2015
Online date: June 25, 2015

Ditto Stereo Looper
An Evolution in Stereo

A Wider Loop Perspective

The most intuitive and amazing looper known to musickind is back. Packing a wealth of cool creative features that'll see you jam along with the cream of the crop in music today via the innovative StarJam feature, while creating multi-layered masterpieces in seconds flat. But first and foremost Ditto Stereo Looper is here to give all loop lovers what you've been craving the most – dirt simple looping in stereo!

- Super intuitive – Made by guitarists for guitarists
- Stereo I/O
- Loop Import/Export and Backing Tracks

Ditto Through and Through

If it ain't broke, don't fix it and why should you when you have made something musicians truly love? That's why even though we've added some new features, we've preserved everything that's good about Ditto Looper: the ultra-simple design, the 5 minutes of looping time and unlimited overdubs all packed in a highly pedalboard-friendly enclosure. So if you liked Ditto Looper, you'll love Ditto Stereo Looper.

You – In Stereo

There's nothing like that super-wide sonic perspective you get from a stereo rig, it just rules! So why should stereo devotees not have a high-quality compact looper just like the mono-riggers? That's why Ditto Stereo Looper offers first-rate stereo I/O options alongside True-Bypass, Analog-Dry-Through, the option of running on a 9v battery and 24-Bit uncompressed audio for maximum you. So loop that E-chord and be blown away over and over and over again.

Rock With The Best

In order to progress as a musician you need someone that constantly pushes you and your creativity to its very limits and beyond, and who's better suited to do exactly that than the world's greatest musicians! Enter StarJam, a cool and innovative concept that lets you load prerecorded loops made by the likes of John Petrucci, Steve Morse, Guthrie Govan and Paul Gilbert into Ditto Stereo Looper, supplying you with hours of inspiration so you can progress to the next level. We won't promise fame, glory and hot tubs, but we will promise an instant boost in creativity and fun!

Backstage Pass – All Access

There's so much to love when it comes to Ditto Stereo Looper. Get the overview of all of its cool features here.

5 minutes of looping

Whether you're going for a multi-layered masterpiece or a dirt simple groove, time will always be on your side.

Backing Track

Having a backing track right at your feet that you can layer and reset as many times as you like makes practicing more fun and gigging a lot easier.

Import/Export loop from PC/Mac

This greatly adds to the versatility for Ditto Stereo Looper. Preload your perfected loop for a gig or record a track and easily export that special loop into your favorite DAW. You can even download prerecorded rock star loops made by musics finest directly into the looper via our cool StarJam concept.

High quality sounds

Audiophile approved 24-bit uncompressed high quality audio. The audio nerds at HQ assure us that's really really good. We know it as "better than CD quality", and Ditto Stereo Looper just sounds brilliant.

Stereo In/Out

Who doesn't want to have more sound? Yeah, we thought so. So, get those loops nice and wide, and blow the audience's mind.

Unlimited overdubs

Unlimited. That's a lot. Point is, you'll run out of ideas before Ditto Stereo Looper gives in.

Analog Dry-Through

Ditto Stereo Looper always let's your 'dry sound' pass through without ever converting it to digital, keeping your original tone just that – original and purely as you intended it, coming through with zero latency.

True Bypass

When Ditto Stereo Looper is bypassed, it's REALLY off and has zero influence on your tone, making sure you have optimum clarity and zero loss of high-end.

DITTO STEREO LOOPER'S RESUME

- Super Intuitive – made by guitarists for guitarists
- Loop Import/Export, Backing Track and StarJam
- Stereo I/O
- Compact Design
- True Bypass and Analog Dry-Through
- Runs on 9V batteries or optional PSU
