

**TS-100B AIR-POWERED SPEAKER STAND****ITEM #16759**

Air-powered speaker stand does the heavy lifting for you.

**FEATURES**

**Air-Powered Mechanism** - TS-100's internal shock holds the speaker weight under a neutral load, reducing the lift load by 75% on average. Simply turn the telescoping knob and the TS-100 assists in smoothly raising and lowering heavy loads with minimal effort.

**Ergonomic Handle** - large handle provides a substantial grip for raising and lowering the telescoping tube.

**Heavy-Duty Stand** - larger diameter, anodized tubing and metal-reinforced clamps securely support more weight than other stands.

**Truly Portable** - quickly folds into a compact, lightweight unit.

**No Parts to Lose** - integrated sizing adapter and rubber foot caps that won't fall off

**Limited Lifetime Warranty** - the last stand you will ever have to buy, backed by our award-winning customer support.

**APPLICATIONS**

For portable speakers with 1.5" and 1.375" recessed sockets weighing up to 150 lbs.

**ADDITIONAL INFORMATION**

The TS-100 Air-Powered Speaker Stand (Patent Pending) lifts 50 lbs. for you! Our gas spring is under a 50 lb. preload - when the speaker is safely loaded on the stand, turn the telescoping knob and raise any speaker weighing less than 50 lbs. with zero effort on your part. If your speaker is over 50 lbs., marvel at how little effort it takes to raise the speaker to the proper height.
