DREAM. CREATE. ASPIRE.

STUDIO-QUALITY SOUND
IN A COMPLETE CREATIVE
TOOLBOX

GET A MODELING MIC, BITWIG STUDIO DAW
AND THE ANALOG CURATOR FX BUNDLE.
NOW FREE WITH EVERY PURCHASE
OF A SYNERGY CORE INTERFACE.

Carve your own path from studio-quality recordings to release-ready tracks

Dare to build on your musical ideas and explore new avenues of sonic color from the comfort of your home studio?

Tap into the imaginative world of the independent creator with studio-quality sound and a complete creative toolbox – where all the inspiration you need is at arm’s length, just waiting to be discovered.

Take the creative process into your own hands and start curating with the largest selection of analog-modeled plugins, vintage mic emulations and expressive virtual instruments. Strive as many times as you wish and test out your ideas – we give you the tools, you shape your creative vision.

The Synergy Core audio interfaces

Groove with the rhythm of studio-quality audio, while breaking free from the time-constraints of studio production. The discrete preamp and clocking technologies do the most for your sound while the routing and control panel present you with immersive workflow possibilities. **Everything else is up to you.**

The analog-modeled collection

All Synergy Core interfaces come with a vast collection of analog-modeled plugins. Apply them imaginatively and run all the instances you will ever need in a session simultaneously with near zero latency on the Synergy Core onboard platform. **Music production has never been about limitations.**

What do you get with every purchase of the following Synergy Core audio interfaces:

DISCRETE 4 SYNERGY CORE

36 Plugins, Edge Solo, Bitwig, The Analog Curator FX Bundle

DISCRETE 8 SYNERGY CORE

36 Plugins, Edge Solo, Bitwig, The Analog Curator FX Bundle

ZEN TOUR SYNERGY CORE

36 Plugins, Edge Solo, Bitwig, The Analog Curator FX Bundle

ORION STUDIO SYNERGY CORE

50 Plugins, Edge Solo, Bitwig, The Analog Curator FX Bundle

What's included

Edge Solo modeling mic

The single-capsule large-diaphragm condenser mic is adaptable to a wide range of recording scenarios and stands out with its refined sound. Feed a couple of notes into the modeling mic and benefit from **the all-powerful factor of improvisation.**

18 Vintage mic emulations

Find a fresh approach to your recording sessions and get the right vibe in the sound booth by presenting the artist with a vintage mic locker. The mics modeled are some of the most recognized in the industry – **your favorite artists loved their sound.**

Bitwig Studio 3

The full version of the cross-platform DAW is for anyone who fancies the creative challenge and has a knack for experimentation. With a big variety of instruments & plugins for sound design and over 3,000 sounds & factory presets, the innovative software is also an extremely effective tool when it comes to flexibility in audio editing. **Control the rhythm or let it flow with Bitwig Studio 3.**

The Analog Curator FX bundle

Add 5 plugins that recall the sonic essence which built the reputation of the lavish units they were modeled on. Combine them in a signal chain and apply **the sound of past decades to any spontaneous jam session**. Track with the plugins or edit on the fly when inspiration strikes with the included tape machine, tube mic preamp, tube graphic EQ, stereo bus and stereo knee compressors.

INCLUDED PLUGINS

REEL-TO-REEL
BLONDER-TONGUE AUDIO BATON
RD47
IMPRESSER
COMP-4K-BUS

How it works

1. Buy a Synergy Core audio interface.
2. The Edge Solo modeling microphone will be delivered to the customer together with the interface.
3. The real-time plugins and the The Analog Curator FX Bundle will be automatically added to your user account and will be available to use in the Control Panel.
4. Shortly after activating the interface, you will receive an email with a serial number for the full version of Bitwig Studio*. After registration in the Bitwig website, you will be able to download the software and activate Bitwig Studio.

*The license for Bitwig Studio includes 12 months of free upgrades. It is part of the special offer and as such it can't be resold as a stand-alone.

NB: The above mechanics do not apply to b-stock or previously activated devices and the user will have to contact help@antelopeaudio.com in order to receive their promotional goods.
