Freedom of Expression

Who says keyboardists need to hide behind their gear? Liberate yourself and roam free with the Lucina AX-09 Synthesizer. Lucina is compact, lightweight, and loaded with great sounds, all easily selectable with the onboard Category buttons. Plug in a USB stick and add backing tracks to your performances with the Audio Player function, or plug in an MP3/CD player and jam along with your favorite songs. This ultra-light synth is designed to fit all musicians — even kids. It's super easy to use yet it packs a heavyweight musical punch with its stellar sounds and expressive controls.

*In addition to standard Pearl White, premium Black Sparkle finish will also be available in 2010.

- ▶ Stylish, lightweight, compact design
- ▶ Easy-to-use, intuitive user interface
- ▶ 150 high-quality sounds that cover a wide stylistic range
- ▶ 37-note velocity-sensitive keyboard, 128-voice polyphony

- ▶ External-In Jack and USB-Memory Audio Player Function
(You can enjoy playing your favorite songs)
- ▶ Runs on AC or battery power

Great Sounds

Lucina is packed with dozens of high-quality sounds that span a wide stylistic range — from scorching synth leads to silk-smooth pads. Find the perfect sound quickly with the Category buttons, and press the Preview button to hear the currently selected sound with a pre-programmed riff. Assign your top 12 sounds to the Favorites bank for instant, one-button recall. Volume and reverb level settings can be stored with each Favorite.

Battery Power

Plug into traditional power with an AC adaptor (included) or roam free with batteries. Jam for hours* with eight standard AA batteries installed (compatible with Ni-MH AA rechargeable batteries). A battery-strength indicator lets you know when battery power is getting low so you never miss a note onstage.

*Approximately four hours of continuous use per 8-battery load.

Audio Player

The built-in Audio Player feature lets you sound like an entire band. Simply load up a USB stick with your favorite songs in MP3, WAV, or AIFF format, plug it into Lucina's USB port, select the song you want, press Play, and jam along!

Hands-On Control

Put a personal stamp on your performances with the expressive controllers built into Lucina. Wave your hands over the invisible D Beam for dramatic effects, and dig your fingers into the Modulation Bar and Touch control to bend, twist, and sculpt each sound you play.
