

Features & Benefits of the New & Improved Fly Series

Plus the new **Fly Mojo** with the warm, creamy sustain of a select Mahogany body & neck and the crunch and punch of smokin' Seymour Duncan Jazz & JB pickups

New Features (now on all Fly models)	Benefits
<p>Simpler Controls, More Ergonomic Control Layout</p> <ul style="list-style-type: none"> • 3 knobs: magnetic volume, magnetic tone, and piezo volume • Push/pull coil tap selection on the magnetic tone knob • 2 easy access, 3-way toggle switches 	<ul style="list-style-type: none"> • Magnetic volume is right where you want it: close enough for volume swells but not in the way; overall there are fewer knobs, easier to use • 6 mag coil selections, giving you choices from full creamy humbucker crunch to sweet single coil twang and everything in between • Placement & height are just right; toggles are easily switched with your eyes closed
<p>Easier-to-Use Vibrato System</p> <ul style="list-style-type: none"> • The balance wheel and step stop are both now internal and easily adjusted without removing the backplate using the simple tool supplied. • The bridge's "home" position for the vibrato spring tension is now visible through the slot in the backplate • New trem arm and bushing; same adjustment method 	<ul style="list-style-type: none"> • The simple yet dramatic elegance of the lower body curve is now unbroken. • Players unfamiliar with the use of the balance wheel will be less likely to unknowingly move it out of adjustment. • The step stop no longer protrudes through the backplate where it might accidentally be switched through friction against the player's body. • One trem arm style for all US made Parkers; improved trem arm rotational feel
<p>Improved & More Serviceable Electronics</p> <ul style="list-style-type: none"> • New & improved Fishman piezo/mag stereo pre-amp with voltage-doubled circuit • Smartswitch senses stereo/mono cable, eliminates stereo/mono switch • Traditional point-to-point wiring • New battery access in backplate • New input jack flange 	<ul style="list-style-type: none"> • Doubles the peak-to-peak headroom for cleaner piezo/mag mix • Longer battery life, rated at 200 hours • Immaculate, clean, unbuffered magnetic output while in stereo mode • Simpler use in stereo or mono mode • Easier & lower cost electronic part replacement at the Factory or in the field • Easy & fast battery change • No special tool needed for input jack replacement
<p>Other unique and patented Parker Fly features, including:</p> <ul style="list-style-type: none"> • Neck and body are each solid one-piece select tonewood with a thin veil of carbon-glass composite reinforcement on the back • Carbon-glass composite fretboard with stainless steel frets • DiMarzio or Seymour Duncan mag pickups (based on model) • Fishman 6 element piezo system, stainless steel saddles • Sperzel locking tuners • Graphtec self-lubricating nut 	<ul style="list-style-type: none"> • Beautiful select tonewood elegance with unique sonic voice, provides high resonance, long sustain, low weight. Neck has even response with no dead spots. • Fast action surface gets slicker with sweat, not tackier like other fretboards • Frets don't wear out or need leveling / reshaping; individual notes always in pitch. • Two unique voices (acoustic and electric) can be combined in thousands of ways • The nut and tuners combine with the Parker vibrato system to let you play in tune and stay in tune even with aggressive vibrato usage
<p>Exciting new color burst and reverse-burst options, including</p> <p style="text-align: center;">Ice Burst Reverse Ice Burst Mint Burst Butterscotch Burst ... and more!</p>
