RAMPAGE

USER'S MANUAL

*May be covered by one or more of the following: U.S. Patents #4538297, 4647876, 4696044, 4745309, 4881047, 4893099, 5124657, 5263091, 5268527, 5319713, 5333201, 5402498 and 5493617.
Other patents pending. Foreign patents pending.*

Your Rampage pedal has been tested and complies with the following Standards and Directives as set forth by the European Union:

Council Directive(s): 89/336/EEC Electromagnetic Compatibility

Standard(s): EN55013, EN50082-1

This means that this product has been designed to meet stringent guidelines on how much RF energy it can emit, and that it should be immune from other sources of interference when properly used. Improper use of this equipment could result in increased RF emissions, which may or may not interfere with other electronic products.

To insure against this possibility, always use good shielded cables for all audio input and output connections. This will help insure compliance with the Directive(s).

Introduction

Congratulations on your purchase of the Rocktron Rampage™ distortion pedal! The Rampage™ is designed to provide ultra-high gain distortion with very little noise.

Along with Bass, Treble, Sustain and Output level controls, the Rampage also provides a special "Scoop" control which allows you to cut the mids by up to 30dB.

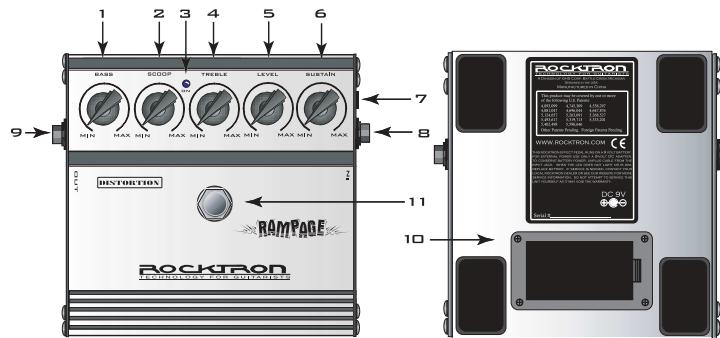

The Rampage is housed in an ultra-rugged chassis with slightly recessed controls to protect against any accidental bumps which might alter your settings.

Functions

Functions

1 = Adjusts low frequency levels

2 = Adjusts mid frequency levels

3 = LED - When lit the LED indicates that the Rampage is "Active".

4 = Adjusts high frequency levels

5 = Adjusts overall volume levels

6 = Adjusts level of distortion

7 = 9 Volt DC Adapter Input

8 = Input Jack

9 = Output Jack

10 = Battery Compartment - push black tab to open compartment

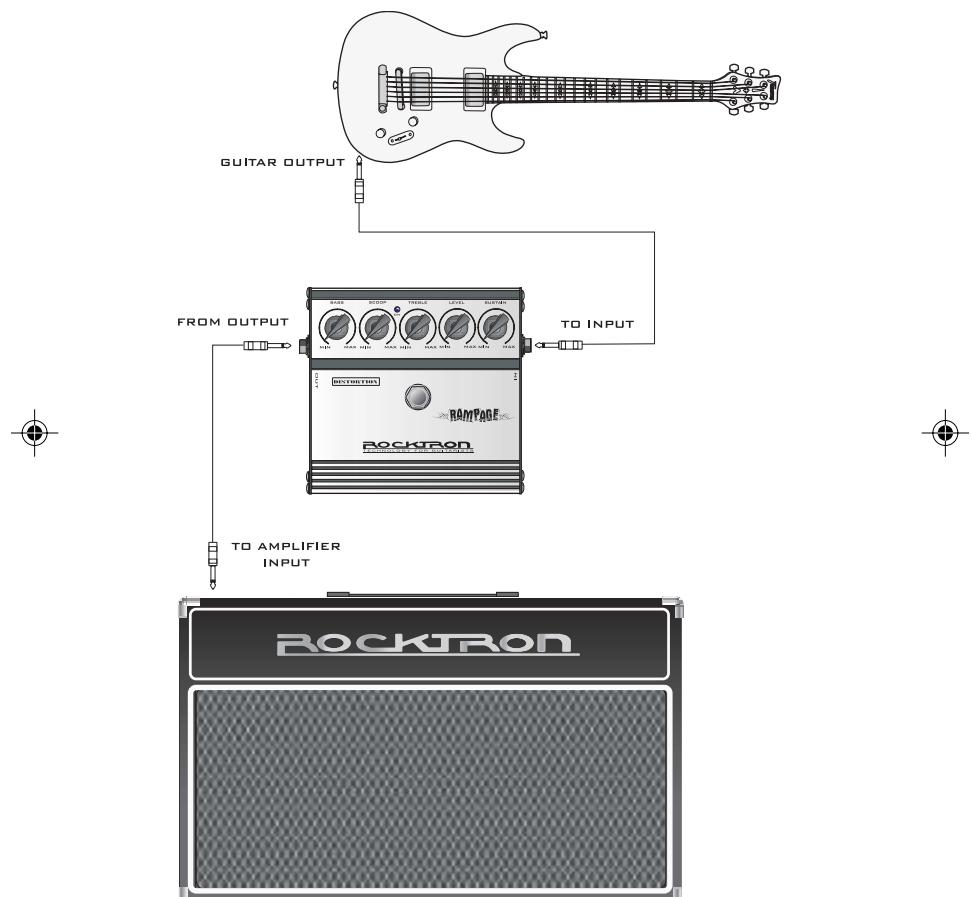

11 = This switch determines whether the Rampage is "Active" or "Bypassed"

4

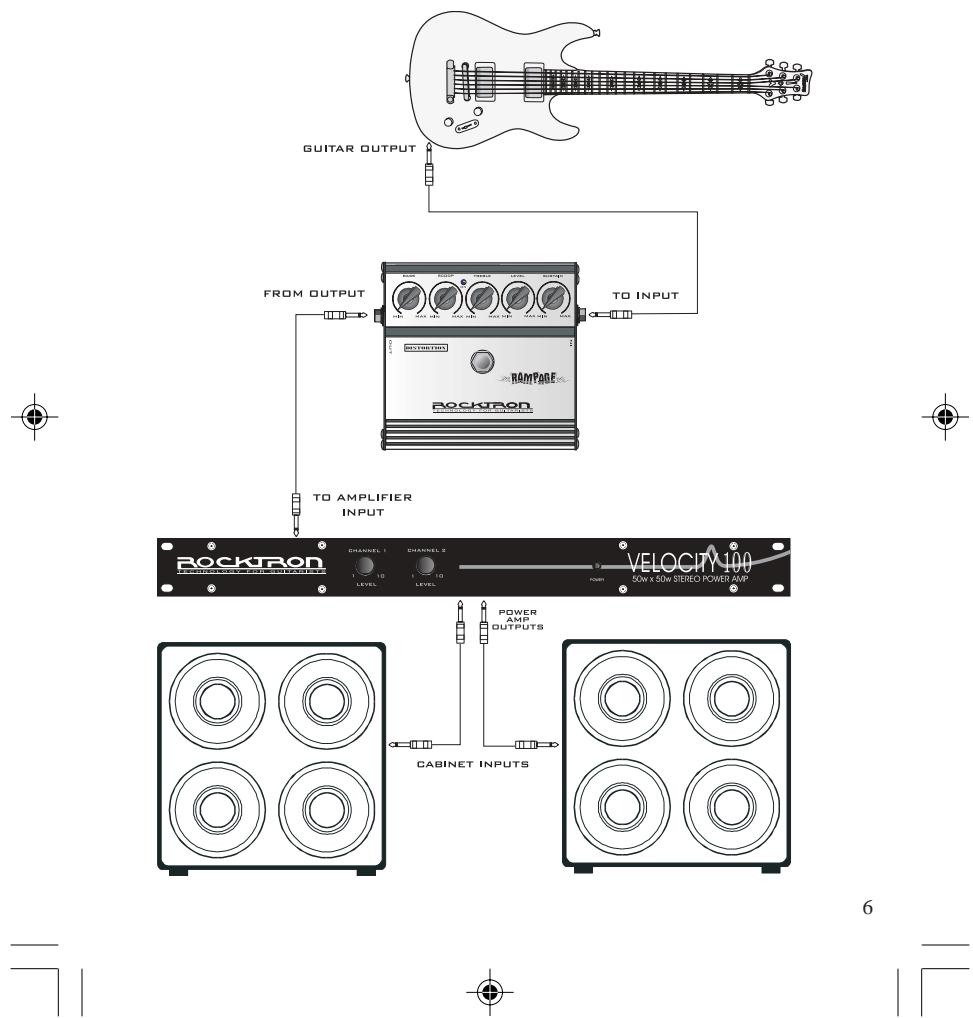

Connection

Using the Rampage with a power amp and speaker cabinets

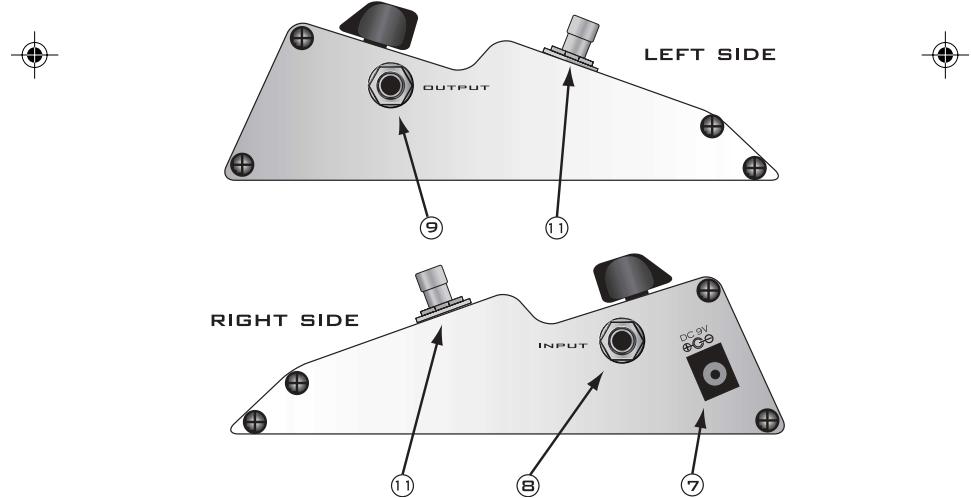

Introduction

French

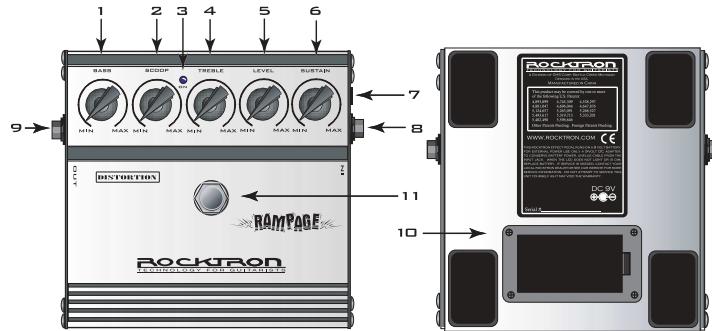

France

Functions

Functions - France

1 = Règle le niveau des graves

2 = Règle le niveau des médiums

3 = LED - Quand la LED est allumée cela signifie que la pédale Rampage est en fonction

4 = Règle le niveau des aigus

5 = Règle le niveau de volume général

6 = Règle le niveau de distorsion

7 = Entrée pour alimentation 9 Volts DC (voir page ci-contre)

8 = Entrée Jack (voir page ci-contre)

9 = Sortie Jack (voir page ci-contre)

10 = Emplacement de la pile

11 = Cet interrupteur permet de mettre la pédale Rampage en position "Active" ou "Bypassed"

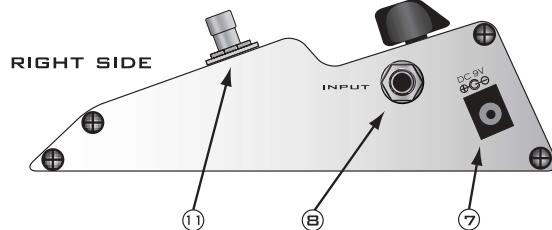

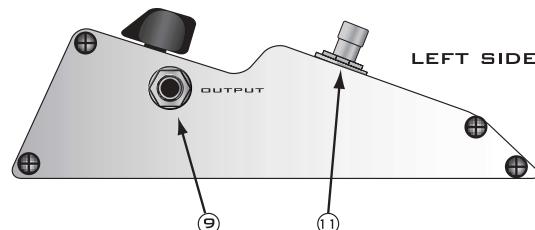

Introduction

German

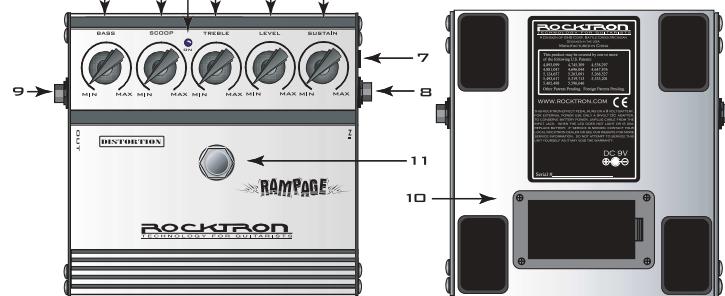

Germany

Functions

Functions - Germany

1 = Einstellen der Bässe

2 = Einstellen der Mitten

3 = LED - Wenn die LED leuchtet, ist der Verzerrer aktiv

4 = Einstellen der Höhen

5 = Einstellen der Gesamtlautstärke

6 = Einstellen der Intensität der Verzerrung

7 = 9 Volt DC Netzteilanschluss

8 = Eingangsbuchse (Klinke)

9 = Ausgangsbuchse (Klinke)

10 = Batteriefach

11 = Dieser Schalter schaltet das Rampage Pedal abwechselnd auf aktiv oder auf „Bypass“

10
